## About Me

Hands-on problem solver with a strong background in automotive paint refinishing, detailing, parts interpretation, and mechanical diagnostics. I apply the same attention to detail and systems thinking to frontend web development (*currently my side-hustle*).

Comfortable working with real-world systems, learning fast, and delivering clean, practical solutions — whether that's on a vehicle or in code.

## Skills & Expertise

### Automotive Refinishing & Detailing

50%

Paint correction, refinishing, surface preparation, polishing, precision work.

### Mechanical & Technical Diagnostics

20%

Fault diagnosis, servicing, accessory fitting, systems understanding.

### Web Development & Frontend Engineering

20%

HTML, CSS, Bootstrap, responsive layouts, UI structure, continuous learning.

### Professional Skills & Adaptability

10%

Communication, reliability, attention to detail, fast learner.

## Experience

### Automotive Technician · Detailer · Parts Interpreter

Retail & Trade Environments · Ongoing

- High-quality automotive detailing and paint refinement work.
- Parts interpretation for retail and trade customers, ensuring correct fitment and compatibility.
- Diagnosing mechanical and technical issues, servicing vehicles, and fitting accessories.
- Working efficiently across multiple manufacturers and vehicle platforms.

## Brands & Manufacturer Experience

- Porsche
- Audi
- Bentley
- Maserati
- Ford
- Holden
- Dodge / Ram
- Toyota
- Hyundai
- Kia
- Nissan
- Mitsubishi
- Jeep
- Suzuki
- GWM
- And more

## Education

### Completed Year 12

Southport State High School

### Certificate I in Construction

Practical construction experience: built bathrooms, birdhouses, toolboxes, and custom projects. Developed hands-on skills in measurement, assembly, problem-solving, and working with diverse materials.

### Self-Directed Web Development & Technical Learning

Hands-on projects in HTML, CSS, Bootstrap, and responsive web design, applying real-world problem solving and systems thinking.
